

'**Scrub**' mats are manufactured using polypropylene yarn, knotted and embedded into a water resistant gel backing. 4 rows of side-by-side ridge design is very effective in cleaning shoe soles, removes moisture, salt residue, dirt and debris, keeping the floors clean for longer periods of time.

'**Scrub**' comes in 3.28' (1000mm) & 6.56' (2000mm) wide X 82' (25m) long rolls.

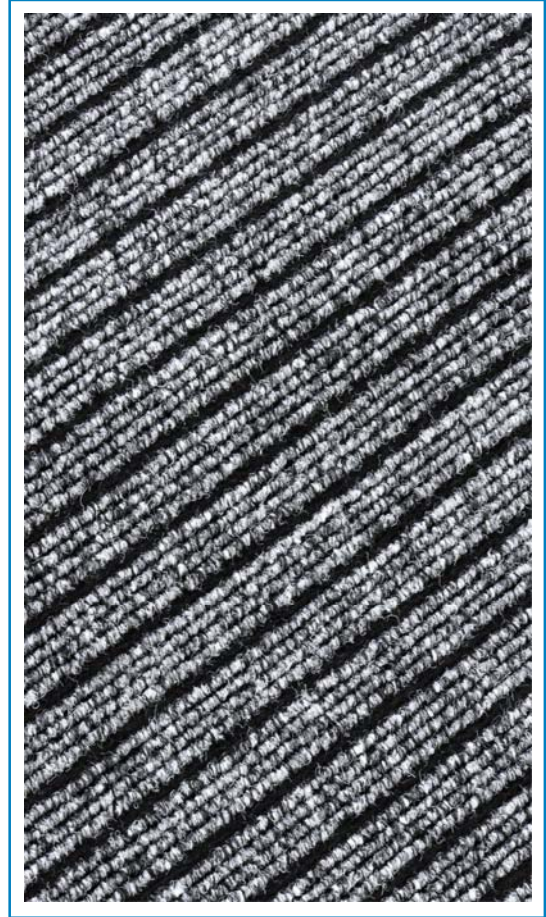

'**Scrub**' does not fade, shed fibers, rot or smell when wet. This product is available in 6 colors to match your interiors.

'**Scrub**' can be used as wall-to-wall entrance carpet for most elegant and pleasing interiors and is usually your second line of defense against moisture, salt, dirt, sand etc.. or use it like loose area rug of a runner. For best results, cover the entire entrance area with '**Scrub**'.

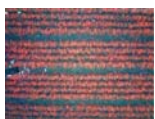

'**Scrub**' comes with edge beading as an option. Edge beading and Gel backing of this mats help reduce movement, especially on hard surfaces.

'**Scrub**' is recommended for moderate to heavy traffic and is easy to clean with vacuum or steam extraction.

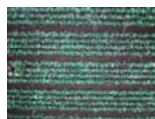

Sample Specification: Provide 7/25" (7mm) thick approx., polypropylene yarn matting with gel backing, model '**Scrub**' by Prospect Specialties.
